

WORKING TOGETHER

A Quick Guide for You

What to expect, what you'll receive from me, and the easiest ways for us to stay in sync. Keep this handy.

HOW IT WORKS

1

You share the case

Send me the relevant documents and anything I should know. That's all I need to get moving.

2

I run the process

I take it through a proven, repeatable workflow — the careful, behind-the-scenes part is on me.

3

You get a clean result

A finished deliverable that's ready to use, plus a plain-English summary of what was done.

WHAT YOU'LL RECEIVE

- **The deliverable.** Clean, finished, and ready to use — no assembly required.
- **A simple playbook.** A short, plain-English note on what was done and how to use it.
- **Status updates.** Brief check-ins at agreed points, so you're never left wondering where things stand.

WHAT HELPS ME HELP YOU

- **Send documents & deadlines up front.** The sooner I have them, the faster I can move.
- **Flag anything unusual early.** Case-specific quirks are best known before, not after.
- **Tell me the outcome you want.** The goal, not just the task — it helps me get it right the first time.
- **Don't polish it for me.** Formatting and cleanup are my job — just send what you have.

STAYING IN TOUCH

BEST WAY TO REACH ME

Email or a quick message

Short and specific is easiest for me to action.

WHEN I'LL UPDATE YOU

At start, midpoint & delivery

Plus a heads-up if anything changes.

TURNAROUND

Agreed per case

Need it sooner? Just say "rush" and I'll prioritise.

What you don't need to worry about. The drafts, the technical setup, the back-and-forth to get it right — that's all handled behind the scenes. You see the finished result, not the workshop. And each case after the first moves faster, because the process is built to be reused.

Questions are always welcome. If something's unclear, ask — no question is too small.
